Munich. Commitment to a brand can be expressed in a variety of ways. MINI fans and customers can also underline this outside of their own vehicle in everyday life: with the new MINI Lifestyle Collection 2024, they are always and everywhere connected with their favourite brand. The collection combines brand-typical style and functionality. Graphic details of the MINI Cooper design characterise the new MINI lifestyle products. A high proportion of reclaimed materials characterises the responsible production of the new product line. For example, production waste is collected and reclaimed in the same way as nylon and PET.

New textiles for the MINI Lifestyle Collection 2024.

The main motifs of the new collection are based on the front of the new MINI Cooper. One of the many highlights is the **MINI Car Face Detail T-shirt** with a stylised graphic of the typical MINI round headlight. If you like it particularly comfortable, slip into the **MINI Outline Print Hoodie**. The outline of the new MINI Cooper headlights and radiator grille playfully stretches across the front and back of the hoodie.

The colour concept for the MINI Lifestyle Collection 2024 is based on the contrasting colour scheme of the new MINI family. For example, the new **MINI Caps** combine the bright shade of Rebel Red with the new Vibrant Silver through colour blocking.

All garments are made from a mix of organic and recycled cotton or are made from 100% organic cotton. The entire fashion collection is produced in Portugal.

Long-lasting companions for everyday life and travelling.

Whether for an extended weekend trip or shopping around the corner, every piece of luggage in the MINI Lifestyle Collection 2024 impresses with carefully thought-out details.

The timeless **MINI Duffle Bag** is available for all those who prefer a classic look. The travel companion is made of durable, water-repellent, recycled PET and offers plenty of space in the spacious inner compartment. A two-way zipper makes packing easy. On the go, the travel bag with removable shoulder straps can be carried either by hand or over the shoulder.

When traveling, the **MINI Cabin Trolley** with the embossed MINI logo is a durable and handy companion. Thanks to the four quiet wheels, the lockable hard-shell case can be moved effortlessly and quietly when travelling. The large inner compartments are divided into several areas and allow you to organise your luggage. Like all the inner linings of the new MINI bags, the MINI Cabin

The brand-new **MINI laptop bag** made of high-quality, recycled nylon reliably protects electronic devices even when you're on the go thanks to the padded inner compartment. Particularly handy: an open compartment on the back allows the laptop bag to be conveniently connected to the telescopic handle of a trolley.

All laptop bag, travel bag and backpack from the "Urban Series" of the new MINI Lifestyle Collection 2024 are comfortable and secure to hold thanks to their woven structure. The woven pattern is based on the textile strap on the dashboard in the cockpit of the new MINI family. With these design details, fans of the brand carry a part of the MINI world with them everywhere.

Playfully and safely exploring the environment — no problem with the **MINI Alu Balance Bike** for children.
