BMW M. 

THE BMW M6.

UNCOMPROMISING PERFORMANCE.

Uncompromising high performance has never looked so good. The BMW M6 Coupé makes an unforgettable impression with its muscular contours and dynamic profile. The BMW M6 Convertible, a sublime blend of motor-sport DNA and sheer exclusivity, creates a sports car of irresistible style. Whether luxurious Convertible or sporting Coupé, the BMW M6 turns any journey into an enthralling experience.

V10 ENGINE.

A ten-cylinder, naturally aspirated 5.0-litre powerplant is what drives the M6 Coupé and Convertible. The strength of the high-revving V10 engine lies in its cutting-edge technology and compact, lightweight construction. Maximum outputs of 507hp and 520Nm of torque mean exceptional 0-62mph times of just 4.6 seconds (Coupé) and 4.8 seconds (Convertible). Ten individual throttle butterflies help the engine breathe and ensures it responds instantly to every demand.

SEQUENTIAL MANUAL GEARBOX.

With the BMW M6, an authentic sporting experience is as important as a comfortable drive. That's why BMW developed the Sequential Manual Gearbox. It allows you to shift gears in milliseconds, using the steering wheel-mounted paddles or the selector in the centre console, giving full and near-seamless control of the V10 engine. Whether you're looking for effortless cruising or F1-style immediacy, you'll always find the perfect set-up using DRIVELOGIC – eleven different gearshift programmes.

A PERSONALISED DRIVING EXPERIENCE.

The BMW M6 can be adjusted to suit your exact personal needs – from the suspension settings (EDC) and DRIVELOGIC mode, to the engine power and Dynamic Stability Control setting. Using the MDrive Manager (within iDrive), your preferred combination of settings can be configured and stored. These settings are then simply activated by pressing the MDrive button on the M Sport leather steering wheel.

STANDARD EQUIPMENT HIGHLIGHTS.
